Coushatta Casino Resort: Louisiana's Best Bet

The drive to Kinder, Louisiana and Coushatta Casino Resort is a familiar one to many Texans. It's easy to see why: Coushatta offers its guests a gigantic 100,000 sq. ft. gaming floor, 2800 hot slots, 70 fast-action table games, live poker room, 25,000 sq. ft. non-smoking slot section, separate high stakes salons, plus one of the most liberal slot clubs in the South. It all adds up to Texas-sized excitement.

You'll feel like a kid in a candy store inside this spectacular casino -- slots everywhere you look with bonus jackpots and progressive games, plus lump sum progressives with impressive jackpots. Settle in for a snug game of Blackjack, take a spin on single- or double-zero Roulette, get in on a Craps game where cheers erupt spontaneously over a roll of the dice. Play Pai Gow, Mini-Baccarat, Let It Ride, Three-Card Poker, Caribbean Stud, put on your poker face for Texas Hold 'Em or Omaha in the huge live Poker Room. Whatever your preference, your game is waiting.

Coushatta has recently completed an upgrade of its entire slot floor, installing a new system that allows players to earn points even faster! Plus, every slot machine now has an interactive display to show players their point balance, comp balance, and promo entries. And the advantages of the upgrade continue: Guests can now use their Club card directly at any venue—for meals, rooms, gift shop purchases, even gasoline at the on-site convenience store, or rounds of golf at Coushatta's championship golf course.

Over a quarter of Coushatta's slot floor has been replaced with more than 700 new games—the latest and greatest from major manufacturers. Coushatta offers more than 1300 penny games, the most in the region. And Coushatta's reputation for “bigger and better” doesn't stop there. Non-smokers are raving about the huge 25,000 square foot slot non-smoking area, easily the largest in the entire region.
